Purchased by accident ▼

You can help prevent accidental purchases made from the Play Store app by requiring certain information be entered to make a purchase, like a password. Here's how:

Open the Google Play Store app.

Touch the Menu icon > Settings.

Touch Require authentication for purchases.

Choose a setting.

For all purchases through Google Play on this device

Every 30 minutes

Never

Follow the on-screen instructions.

If there's any chance that someone else knows your Google Account password, we also recommend [changing your password](#).

If you'd like to request a refund, fill out this form and we'll get back to you over email. If you're requesting refunds for multiple orders, we recommend [calling us](#).

Note: You may lose access to any refunded content. If you get a refund for in-app purchases, the app's developer may choose to remove content, progress, or access to the app.
